

Lymphomyosot®X

Indication

Lymphomyosot®X Injection Solution is a homeopathic drug indicated for improvement of lymphatic drainage, the non-specific immune defense, and conditions such as benign hypertrophy of lymph nodes, chronic tonsillitis, tonsillar hypertrophy and lymphatic edema.

MOA

Not completely understood.

Acute Trauma

Administer 1 Traumeel® ampule and 1 Lymphomyosot®X ampule combined in one syringe. Inject either IM, IV, or SC with a narrow gauge needle (e.g., 27g to 30g) on day one and day three.

Non-Responsive to Injection Therapy

Administer one Lymphomyosot®X injection once per week for four weeks. Then resume original injection therapy. Or combine Traumeel®, Zeel®, and Lymphomyosot®X together in one syringe. Inject IM using a narrow gauge needle.

Infusion Therapy Patient

Add one to two ampules of Lymphomyosot®X to IV drip to attenuate response of concomitant medications.
