**Statement on the use of homeopathic remedies for the treatment
of top athletes**

For many years homeopathic remedies have been part of the range of efficient pharmaceuticals I am using for the treatment of top athletes. Because of the low concentration of the active ingredients (homeopathic dilutions), and also because of my own rich experience in the application of homeopathic remedies (e.g. Traumeel), I can say that these substances by no means can be suspected of being illegal doping. The fact that no homeopathic remedy is listed in the regulations of the NADA (German National Anti-Doping Agency) supports this argument. On the contrary, NADA explicitly lists "Traumeel" as a permitted vulnerary remedy. Other positively listed homeopathic remedies are "Gripp-Heel" and "Zeel".

As the leading medical doctor of the bicycle racing-team of "Team Gerolsteiner" as well as in my present occupation as a member of the medical team of 1. FC Kaiserslautern of the German Bundesliga, I have achieved many positive results with homeopathic remedies. I am sure that homeopathic remedies like Traumeel will also play an important role in the FIFA world cup 2006 in Germany.
